Interaction on both sides of the counter.

The Twist is all about movement and functionality. Capable of being rotated 360° between portrait and landscape as well as flipped front and back to show users on both sides of the stand.

180° Pivot Range

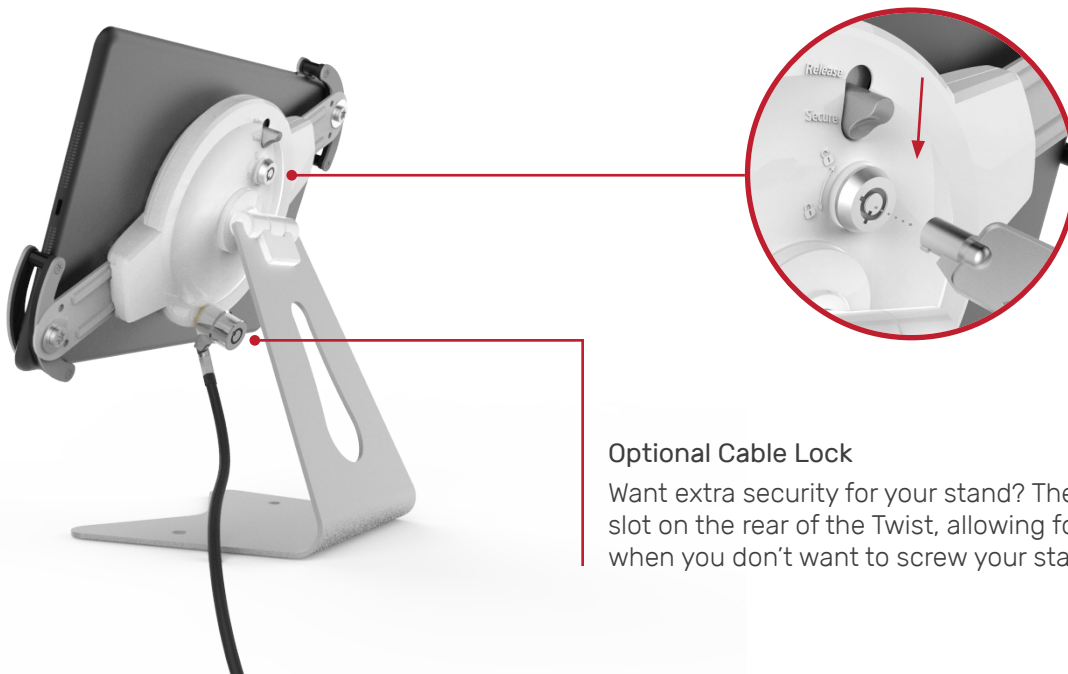

Secure and Adaptable

Designed with security in mind

You can rest assured that your tablet will be safe from theft as the enclosure is locked with a barrel key. The stand also comes with 2 screw holes in the base that allow for the stand to be secured to any desktop or even a wall.

Compatible with most mid sized tablets

The arms can be pulled in and out to accommodate a large range of tablets, including the iPad Air, iPad 5 2017 and the 9.7" Galaxy tablets. View the specification page for the a list of recommended tablets.

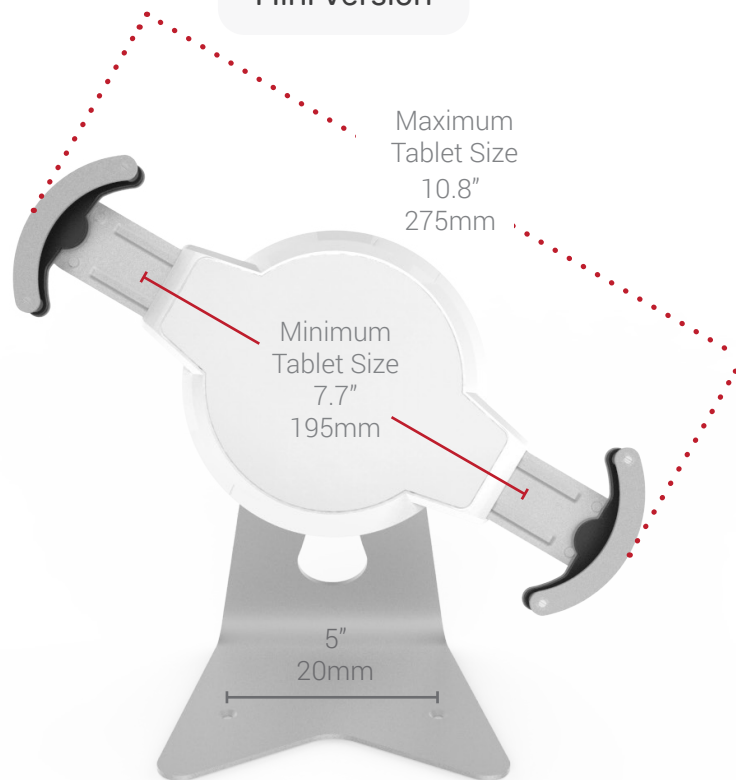

Optional Cable Lock

Want extra security for your stand? There is a cable lock slot on the rear of the Twist, allowing for more security when you don't want to screw your stand down.
